

**Report II**

**Volume 2008**

**February 7, 2008**

---

### **C-NES™ NETWORKS**

We will be updating our display software from the 10<sup>th</sup> through the 19<sup>th</sup> of this month because of this our meter data displays will be down from time to time.

### **C-NES™ MARKETING**

The Company will be participating in the TechAdvantage Conference and Expo held at the Anaheim Convention Center in Anaheim, CA. from February 22<sup>nd</sup>- 25<sup>th</sup>, as stated in our January 29<sup>th</sup> press release ([Press Release](#))

The 2008 TechAdvantage Expo is the utility industries only trade show exclusively held for electric cooperatives offering attendees the opportunity to view exhibits presenting state-of-the-art products and services they can utilize in the daily operation of their cooperative. There will be over 700 cooperatives attending and ConectiSys will have the opportunity to network and present our HNET™ products and services for the very first time. The Company is looking forward to this wonderful opportunity to position HNET™ technology in this new arena.

#### **Expo/Conference Overview**

The Conference provides utility co-ops an opportunity to discover emerging technologies and best practices through unique tracks and sessions. It provides leading edge strategies to help co-ops reduce costs enhance reliability and increase service quality.

More than 60 sessions are dedicated to emerging technologies and best practices are offered through three unique tracks — engineering and Operations, Information Technology and Supply Chain Management.

Please click here to view the CNES expo booth floor plan for TechAdvantage 2008: ([Floor Plan](#)). As stated in the January Press Release the Company will be displaying its live demonstration of our cost reduced HNET™ 6.0 product line including meters, BaseStation, software, and customer displays.

On behalf of everyone here at ConectiSys we hope that you enjoy the future updates as it is a very exciting time to be involved with ConectiSys, and if you are in town please come visit us at booth # 333 at the Anaheim Convention Center.

#### **FROM THE DESK OF ROD LIGHTHIPE...**

As indicated in the Marketing Update and Expo/Conference Overview portions of this report, the Company for the first time ever will display its technology at a public exhibition. The TechAdvantage Conference in Anaheim, California will be the first of several conferences we will be at this year. The Marketing Program we promised our Shareholders for 2008 is now in full swing.

That being said .... I anticipate we should have other news in the next thirty days which will announce the deployment of our HNet™ 6.0 Network in conjunction with an alternative energy electric service provider. Look for a news release with the details of this relationship in the near future.

I will report to our shareholders next month the results of the ConectiSys presence at TechAdvantage.

Sincerely yours,

Rod Lighthipe  
Director of Business Development

**AMI and Outage Management: Co-ops See the Benefit**  
by Betsy Loeff, contributing writer

It's almost as though the proverbial light bulb has switched on, says Rob Lauridsen-Hoegh, spokesman for Tantalus Systems, a provider of advanced metering infrastructure (AMI). "Cooperative utility people are definitely seeing the value of AMI data. They know these data deliver more than just a meter reading."
