Service Charge Example = \$1.50X12X10,000X3-Yrs

Siemens Power Generation

Company: Siemens

A division of Siemens Canada Limited, (Rating: Low). This is another opportunity that can make a large impact on the company. Product schedule has been set back to the second Quarter of 2009 due to interface issues. Siemens Power Generation of Canada has agreed to have ConectiSys provide its H-Net meter system product to monitor generation in their plant. Siemens has sent us the meter specs. for IO digital porting. We are working with Siemens support group, ABB Meters, Elster Metering and our developers to port data from the ABB Polly-phase meters within the generation plant.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995: The statements contained herein and in the Monthly Report that are not historical are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements including, but not limited to: the level of cost-effectiveness and efficiency of the Company's H-Net™ automatic meter reading products or technologies; changes in the Company's policies regarding communications with shareholders and the general public; the success or failure of the Company's marketing efforts and the particular efforts to be employed; the Company's ability or inability to commercialize, sell, license or further develop its H-Net™ automatic meter reading products or technologies; and other risks detailed from time to time in the Company's periodic reports and other filings with the Securities and Exchange Commission.
